**Subject:** Time to stop the political attack upon Microsoft

It is long over do to let all this be done with. Most of my friends agree this was all done for political reasons. If the former US Attorney would have spent as much time on terrorist threats against the USA we might not have had the lose of life on 9/11/01. What a injustice has been done to all Americans. Stop letting a group from playing politics and not be concerned for the true welfare of all US citizens
